

**LIFE LINE HOSPITAL**  
**EMERGENCY AND VASCULAR HOSPITAL**

Duration:4 month

Academic year : 4th year ,2026

Type : hospital , healthcare

Location The Western Agricultural Road in Upper Egypt  
28°08'42.0"N 30°43'58.8"E

Concept : The hospital is based on the idea that time equals life. As an emergency facility located on the Upper Egypt highway, the design prioritizes speed, clarity, and immediate response. The building acts as a point of safety along the road, stable, and easy to access receiving critical cases without confusion or delay. Movement within the hospital is direct and logical from arrival to treatment, allowing architecture to function as a lifeline mediator between danger and survival. Lifeline Hospital is not just a healthcare Hospital is not just a healthcare but its life line that transforms critical moments into chances for rescue.
